Downtown DWD office staff to move temporarily

JEFFERSON CITY, Mo. -- On Monday, March 5, 2001, employees at the Missouri Division of Workforce Development office at 505 Washington Avenue will relocate temporarily to other St. Louis area Missouri Career Centers to make way for renovations at the Washington Avenue office.

The other Missouri Career Centers in the area are located at 4811 Delmar, 1017 Olive Street and 6821 South Broadway. Additional locations serve Arnold, St. Louis County and St. Charles County.

Missouri Career Centers provide a wide variety of employment and training services to area businesses and job seekers -- all at no charge.

Businesses can use the Missouri *WORKS!* Internet site, www.works.state.mo.us, to review thousands of resumes, post job openings and find qualified workers; can test and interview job applicants; can gain access to Labor Market Information (such as employment, unemployment and wage data); and can learn about financial incentives for hiring new workers.

Individuals seeking work can create and post their resumes on Missouri *WORKS!*; can conduct a job search; can use Resource Rooms to research career opportunities and gain information about available supportive services; and can apply for training and education opportunities.

For those seeking unemployment insurance, the claims are processed by the Missouri Division of Employment Security and may be filed by phone or on the Internet at www.ui.dolir.state.mo.us.
